

LETTER OF APPRECIATION

To Whom It May Concern,

I am pleased to appreciate **AKSHAT GUPTA** for successfully completing his internship under my guidance.

During the internship, Akshat displayed a positive attitude, strong dedication, and a willingness to learn. He gained practical experience in SAP technologies, including SAP ABAP, SAP HANA Cloud, SAP BTP, SAP Fiori, and SAPUI5. He worked on various assignments involving database design, ABAP programming, report development, and application development, completing each task with sincerity and commitment.

As one of the early interns in the training program, Akshat also contributed to supporting those who joined later. He was approachable, shared his knowledge when needed, and helped others become comfortable with the development environment. His cooperative nature was appreciated.

Throughout the internship, Akshat remained professional, responsible, and eager to improve his technical skills. I appreciate his hard work and commitment, and I am confident he will continue to perform well in his future academic and professional endeavours.

I wish him all the very best for his future.

Best Regards,

Yogesh Singh
